HOMELESS

**Where did they go wrong
What did they not say
To face their little problem
Make it go away**

**How could they not see the light of the fallen
Pick yourselves up off the floor we keep callin
But we forgive them for they hear not what we say**

**Cause this is their song
This is their story
There is no light they have
No hope they have
In this world that keeps them falling**

**It's still their song
And we aren't the answers
So we'll give up our voice
To give them the choice of a song**

(Repeat Chorus)
